

CBD OIL AS A NATURAL ALTERNATIVE

Health And CBD Today

Being Healthy Is A Gift

WHAT DO YOU KNOW ABOUT PURE CBD OIL AS A NATURAL ALTERNATIVE?

You can make a difference in your life using Mother Nature as your guide

MyDailyChoice CBD Oil

Despite the fact that this might be a very controversial topic, it is still fun to explore! Let's talk about 100% **pure CBD Oil** and its natural health benefits.

Suffice it to say that once the mere mention of CBD Oil, the first thought that comes up is this – ‘are we talking about Marijuana’ – and the answer is **NO**.

They are close relatives, however, there is a distinction between the two. It all stems (pardon the pun – I told you this would be fun) from the difference in the plant properties and how they are cultivated as well.

THE HEMP PLANT

Bountiful hemp plant

The plant which delivers CBD, or Cannabidiol, also known as CBD, is the Hemp plant. [1]
There are more than 80 active cannabinoid chemicals found in the hemp plant and more than 400 natural occurring chemicals.

The Hemp Plant

What separates CBD Oil from its well-known cousin – Marijuana – is the amount of THC (the psychoactive component tetrahydrocannabinol) which is the chemical found naturally in the Hemp plant which gets you high or takes your mind into an altered state of awareness.

CDB Oil does not affect the body in this way.

CBD ISOLATES AND EXTRACTS - WHAT IS CBD ISOLATE?

CBD Oil doing wonders every day

CBD isolate is a fine white powder containing 99% pure CBD. This pure crystalline contains only the CBD chemical compound, and is CBD in its most concentrated form.

Contrary to what your first thought might be, CBD isolate is not synthetic or made in a chemical petri dish. It is the all-natural cannabinoid supplement that is made from Hemp Oil that has been refined to pure CBD.

What is interesting is the extraction process of the CBD Oil from the Hemp plant and how its integrity is protected.

This brings me to one of the best companies (in my opinion) when it comes to getting the best from the Hemp plant.

MyDailyChoice is a great company with your health in mind, and also your wealth – it offers you a [business opportunity](#) promoting CBD Oil as well.

MyDailyChoice– is one company which shows how much they care about the health of people and using the best natural way to encourage this.

You can read more about them [HERE](#) as well as the fact that they are **one of 13 companies certified** to manufacture CBD Oil based on their method of extraction.

See the news report [HERE](#)

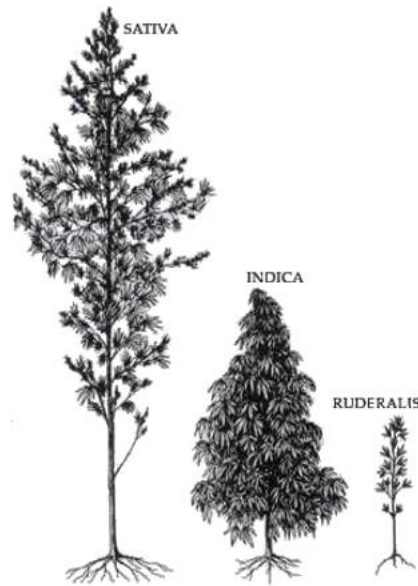

MyDailyChoice

- **CBD Oil main features:**
- It is not a euphoric or intoxicating stimulator
- It targets specific receptors in your brain and body
- Has been the subject of many clinical studies with positive results on mental and health issues
- Let's look a little closer at the facts.

THE HEMP PLANT

Types of Hemp Trees

How Is It Extracted

The Hemp plant is where we get CBD Oil. Once the plant is harvested, it is then isolated through CO2 extraction and crystal precipitation – this is the method used by the company, CTFO. [2] They use the best method of extraction to ensure that the CBD oil produced is in its purest and most organic form.

It is:

The **highest and best grade**

It is **pesticide free**

It is **Non-GMO hemp**

The hemp farms are compliant with USA State Department of Agriculture & are large US distributors of Hemp, rich in CBD, CBG, CBC, and CBN.

HERE ARE SOME FUN FACTS ABOUT HEMP

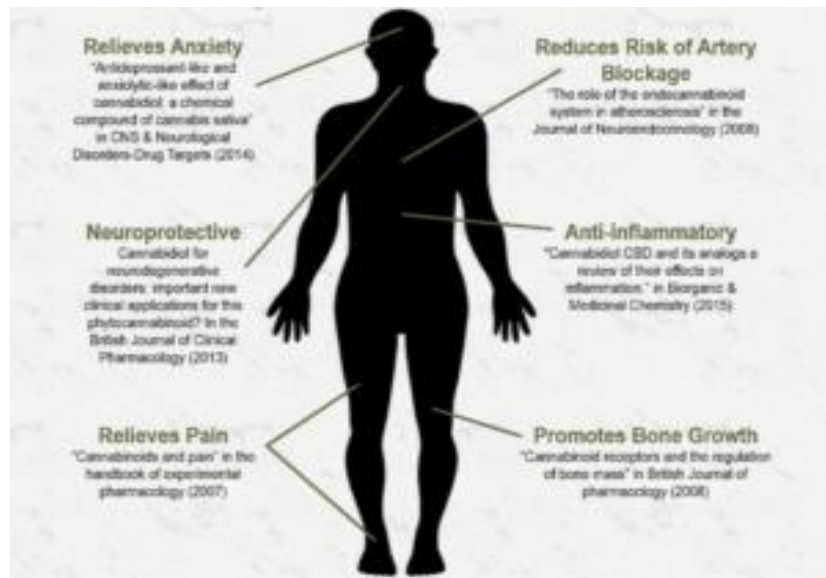

FUN in any language is a blast!

- Surprisingly, the Hemp plant has been around for ages and we can trace its roots way back:
- The first American flag was made from Hemp
- George Washington and Thomas Jefferson were Hemp farmers
- Benjamin Franklin made paper using Hemp
- The USA Declaration of Independence was drafted on Hemp paper
- Ropes were made from Hemp and used on ships and it was also a staple for many American colonies
- Hemp has been grown for the last 12,000 years
- In the 1800s, Hemp was used as a trade currency
- Because it was a necessity in times earlier, you could be jailed for NOT growing Hemp
- There are more than 25,000 products which can be made with Hemp
- It is also a ground-breaking step towards using Hemp and this can be seen in more than 23,000 clinical studies for health options.

ARE THERE BENEFITS OF USING CDB OIL

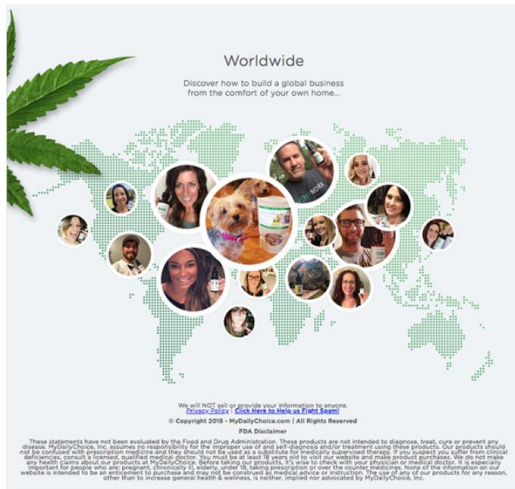

A body's viewpoint.

- I must say a big resounding **YES** to this question. You can read my personal experience **HERE**. Here are some commonly known benefits that have been associated with the use of CDB Oil:
- anti-inflammatory [3]
- supports healthy blood sugar levels
- relieves anxiety [1]
- aids in digestion
- supports optimal immune functions [2]
- helps with the regeneration of healthy cells [4]
- gives a sense of wellness and calm well-being
- hydrates the skin
- reduces obvious signs of aging
- lessens dark spots
- rejuvenates your skin
- helps in the fight against acne
- relieves pain [5]
- promotes bone growth [6]

GIVE MOTHER NATURE A CHANCE TO GIVE YOU THE HEALTH YOU DESERVE!

MyDailyChoice – A Health & Business Opportunity

Well, it only goes to show that **Mother Nature has so much to offer mankind** in the way of natural healing. It is simply up to us to ‘take the olive (or should I say, ‘Hemp’) branch’.

I admit that it might not be the ‘accepted’ **natural alternative** of choice very readily, but I will say that the doubt surrounding its efficacy is lessened by the amount of people and ailments that it has helped.

It is my hope that with constant **education and updated clinical studies**, the world will become more informed and there will be more healing for everyone as we explore pure CBD Oil as another health alternative.

All the best.
